

action. The office action is subsequently routed and physically placed into the corresponding application file.

Applicants' representative encloses a copy of the docket record corresponding to the above referenced application. If the allegedly mailed Office Action was received, the docket record would indicate a due date for response, the typical response to an Office Action. The enclosed docket record copy does not show an Office Action response due date, thus indicating that the Office Action was not received from the U.S. Patent Office. Applicants' representative has searched the respective file and can find no indication of the allegedly mailed Office Action therein.

Not knowing of the Office Action, Applicant did not respond thereto. This statement is signed by Applicants' representative, Mario J. Lewin, and our firm's docket paralegal, Sonie Nasabee.

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made that the knowledge that willful false statements in the like so may are punishable by fine, or imprisonment, or both, under § 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which the verified statement is directed to.
